

Soft Tissue Techniques for Aesthetic Success around Implants

An Intensive 2 day Course

19/20 November 2012

Venue Bath, UK

Advanced course

Soft Tissue Techniques for Aesthetic Success around Implants

Learning objectives:

- Understand Biologic and Aesthetic principles in soft tissue management around implants
- Apply the appropriate surgical approach in restorative, regenerative and implant procedures
- To look at a variety of surgical materials and micro-surgical instrumentation
- Practice Hands-On procedures in specially designed models and Fresh porcine samples

Lecture Topics:

Day 1

- Introduction: when things go wrong
- Biologic Principles (Anatomy, Wound healing etc.)
- Aesthetic Principles
- Treatment steps
- Tx plan/Flap design
- Incision & flap elevation
- Suturing

Procedures (1)

- Pre-Implant treatment
- Socket preservation approach and Grafting procedures
- Micro-surgical Instrumentation:
- Blades, holders, elevators, Suturing
- Magnification

Hands on (1)

- Incision, elevation of different flap designs using Magnification & microsurgical instrumentation
- Papillary Preservation technique
- Socket preservation procedures & Harvesting of Auto-graft: Free gingival graft
- Suturing techniques

Soft Tissue Techniques for Aesthetic Success around Implants

Day 2

Procedures (2)

Implant surgery–Soft tissue implications

- At Placement
At Uncovering

Post–osseointegration/complications

Bone regenerative procedures: soft tissue implications

- GBR
- BBG
- Sinus Lifts

Hands on (2)

Sub–epithelial connective tissue graft
Vascularised Inter–Positional CTG
Suturing techniques

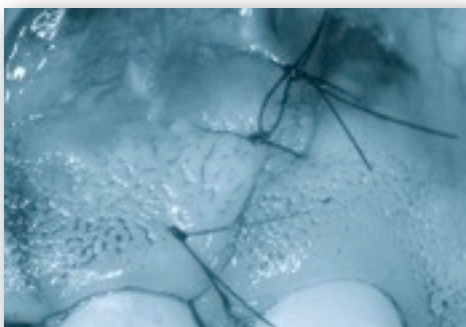

Lecture:

Soft tissue implications:
Sinus lift procedures
Block bone graft
Piezo–surgery

Hands on (3)

GBR

Xenograft + Collagen membrane e.g. BioOss & BioGide
Synthetic allograft + membrane e.g. BioCeramic & Membragel/e–PTFE
Use of soft tissue substitute e.g. Mucograft

Soft Tissue Techniques for Aesthetic Success around Implants

Speakers

Chong Lim
BDS MSC
Specialist Periodontist (UK)

Jonathon Schofield
BDS DPDS MFGDP

Educational Benefits

- 14 hours of verifiable CPD in implant dentistry
- Gala dinner
- Dine and learn with your tutors on the evening of 21st November
- Lecture handouts
- Step by step instructional flash-drive
- On-line support for one year

Soft Tissue Techniques for Aesthetic Success around Implants

Venue

The Dental Implant Clinic
24 Newbridge Road
Bath, BA1 3JZ
